

ROSINSKI
PACKAGING

Integrated Management System Policy

The objectives of ROSINSKI PACKAGING Sp. z o.o. include designing, manufacturing and sales of packagings and other plastic products subject to Integrated Management System. Having in mind the facility's location in Silesian Beskids and the potential impact on the environment, our activities are aimed at minimizing the negative factors that have a particularly negative impact.

We wish to realize those objectives through:

- continuous cooperation and communication with suppliers and customers, leading to identification of their needs,
- continuous cooperation and communication with local authorities,
- acceptable quality of manufacturing,
- safety of technological processes,
- compliance with Good Manufacturing and Hygiene Practices,
- ensuring appropriate work environment for the employees,
- continuous training of the employees,
- continuous improvement and environmental pollution prevention,
- efficient quality, environment and food safety management,
- rational consumption of resources,
- limiting the production of hazardous waste,
- avoiding the use of environmentally hazardous substances,
- full compliance with legal requirements and other requirements with respect to environment, quality requirements and food safety regulations,
- continuous monitoring of factors leading to increasing the ability of company's goals achievement,
- risk assesment based management.

Integrated Management System Policy functions as guidelines to establishing objectives and tasks for quality, environment and food safety.

All employees working for or on behalf of the company will be duly notified of the policy. The policy is available at all times to all interested parties.

It is our wish for the company to be perceived as trustworthy, flexible and reliable supplier of high-quality packagings and other plastic products.

Bielsko-Biala, April 5, 2018

Michał Rosiński
